YEARLONG BUNDLE MORNING TUBS FOR KINDERGARTEN

220+ HANDS-ON ACTIVITIES FOR THE YEAR **SIMPLY**kinder

"My students have loved using this resource! After I get done with my whole group instruction, I take a small group to work with at my table and the rest of the students pair up and get their assigned task box to quietly work on at their desk. The activities have kept my students engaged the entire time they are working with them. I pair my higher students with a classmate that is having difficulties which allows that child to learn from their peer which is always beneficial! The activities are challenging but easy to follow at the same time! Thank you so much for creating this resource!"

"I'm so glad I got this! Each month has so many activities and they're focused on skills my students need to practice. I also like that most of the pages don't need much cutting and prep to get them ready."

"These are perfect fine motor activities that my students can work on for building strength in their little fingers for handwriting. I love that the activities fit in the smaller boxes!"
