- ✓ & more to come

- Decodable in multiple formats
- Small group aid printables
- Word Work printables
- Centers & Activities
- Google Slide & Seesaw
- & MORE

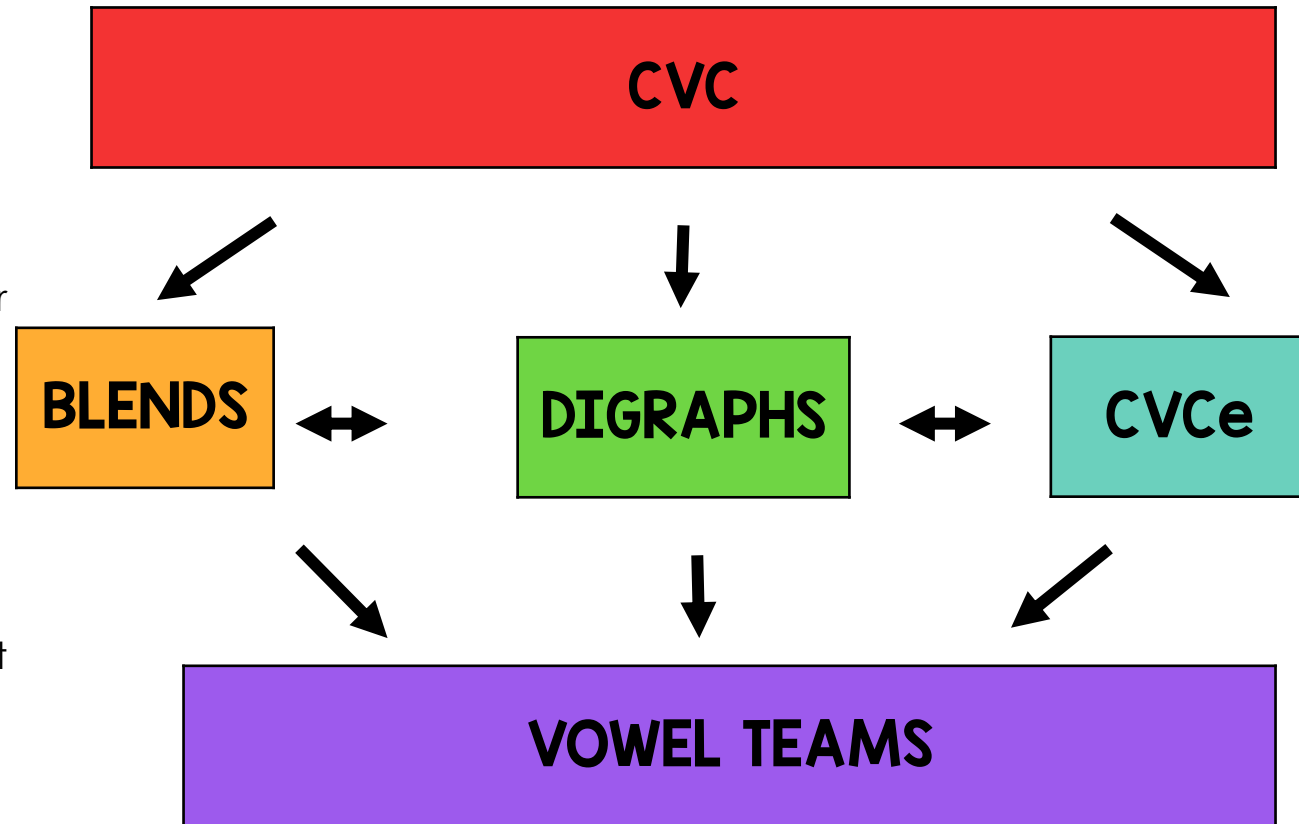

DECODABLE SCOPE AND SEQUENCE

Simply Kinder Decodables are phonic skill based so you can easily supplement them into your lessons. We recommend these books be used in conjunction with strong, research / evidence-based science of reading curriculum.

- We give you multiple books for every skill because we know sometimes students need to spend a little more time on a particular skill.
- We give you several paths to take because we know that the order in which you teach those patterns depends on your core curriculum and can sometimes change.
- We give you isolated phonics patterns (CVC Short E), combination phonics patterns (CVC Short E & Short A), and mixed phonics patterns (CVC Short Vowels).
- The books build upon each other in a way that makes sense. For example, we know that you will most likely not teach short u first, so some of our short u books may have other short vowel patterns in them.

Our decodables do not go in a specific order, but they do build upon each other in a logical order. They are designed to support students as they learn to read fluently considering common prior knowledge for each step of the way.

WHAT ARE TEACHERS SAYING ABOUT THEM

★★★★★ Extremely satisfied

I love all of these decodables and how each book is its own pdf. It is easy to add them to Google and it has a lot of different activities for each book that could be used in class or at home!

★★★★★ Extremely satisfied

This is a solid resource that is perfectly aligned with the Science of Reading. The instructions and activities are wonderful and easy to use.

★★★★★ Extremely satisfied

Wonderful set and decodable books, vocabulary, comprehension, and word work! This is a fantastic resources that is very easy to use and has many opportunities for differentiation. I used these with my small groups. The picture cards were great for my ESL learners.

Meet Jennifer

Jennifer is the founder, lead educator, and curriculum designer of Simply Kinder.

Jennifer and her talented team work hard to provide teachers just like you with high quality, low-prep, and always affordable resources that your students are sure to love.

With a passion for the Science of Reading, Jennifer has been attending conferences, trainings, and workshops on this since 2014. She also holds a masters degree in early childhood literacy and uses evidence based best teaching practice throughout Simply Kinder.

When you purchase from Simply Kinder, rest assured that she's got your back. As a team, we take pride in our customer service and update our resources as we learn and grow because we know your time and money is valuable.

But Simply Kinder is more than printable resources, it's a community of teachers and we would love for you to be in it.

Become a Part of the
